

Job Title: Ph.D. Studentship in Structural Earthquake Engineering

Job Description:

Ph.D. position is available in the Department of Civil and Environmental Engineering for applicants with experience in numerical simulation and testing of structures, preferably related to Structural Earthquake Engineering. The candidate should be qualified to join the PhD programs at UAEU as a full-time student in Fall 2024 or Spring 2025, including BSc and MSc degrees in Civil Engineering and an IELTS score of 6.5. Previous publications in international journals and GRE score increase the chance for acceptance. The duties include numerical modeling, assessment, and experimental studies on the performance of structural systems and submission of research findings to international journals. The application package should include a resume describing qualifications, publications, and experience and the contact details of references.

Minimum Qualification:

Applicant must have an earned MSc and BSc in Civil Engineering with specialization in Structural Engineering, a minimum GPA of 3.0 in the Master's degree, and A minimum IELTS score of 6.5.

Preferred Qualifications:

Preference will be given to candidates with solid experience and previous publications in Structural Engineering who can join the UAEU PhD program ASAP.

Starting Date: Fall 2024 or Spring 2025

Special Instructions to Applicant:

Please email a detailed CV, Transcripts, and IELTS and GRE scores to “amanmwafy@uae.ac.ae”. For further information, you can contact Dr. Aman Mwafy (amanmwafy@uae.ac.ae). Applications for entry in Fall 2024 must be submitted as soon as possible through the UAEU website: (https://www.uae.ac.ae/en/admission/ph.d.and_professional_doctorate.shtml).
