

DEAN'S MESSAGE

The College of Education (CEDU) at United Arab Emirates University has become the leading college in the preparation of professional educators in the UAE. The CEDU is momentous by its scientific research that impact the education field and its innovative academic programs which were based on leading-edge international standards for teachers' preparation. We are striving to meet the educational needs that keep pace with national and international mega-trends in the development of teaching skills and scientific research skills.

The College provides an inspiring learning environment for diverse learning communities, focusing on active and effective learning, so that all students can explore new educational concepts, and develop their skills, practices and dispositions in teaching and leadership. The outreach professional development and educational research provided by the College of Education contribute to the development of teachers' teaching skills in the field of education, and the improvement of school performance in general.

Our bachelor, master and doctoral programs at the CEDU contribute in preparing specialized educators at different levels, education leaders and principals with advanced management skills, specialists in education policy analysis, and distinguished educational researchers.

The College of Education at the University of the United Arab Emirates, with its cutting-edge programs and modern teaching techniques, is the ideal place for an excellent learning environment in the preparation of innovative educational professionals.

Dr. Najwa Alhosani
Acting Dean, College of Education

WHAT CAN I DO WITH MY DEGREE?

Become a Teacher

This is one of the noblest professions in the UAE. Teachers shape the knowledge development of the United Arab Emirates and it is one of the top priorities of the country.

Become a School Administrator or Education Leader

Some students have the opportunity to assume leadership positions in educational and non educational sectors which focus on curriculum development, management and leadership

Become a School/Public Librarian

A degree in education allows literacy and book lovers to become librarians or educational resource consultants regarding textbooks, literature, etc.

Become a Writer/Editor

The experience in research and writing gained during their degree often prepares students to pursue these career opportunities.

Become a Trainer and Professional Development Consultant

Students are prepared to assume roles in the public and private sector as trainers and consultants.

Social Services and Health Professionals

Some educators choose to pursue fields that focus on health and youth development. These positions are for private and public agencies developing training, curriculum and support initiatives.

Government Agencies

Many career opportunities exist in government agencies for students who have degrees and experience in education. From policy development, supervision to program management.

Youth Development

Many educators assume socially responsible positions that focus on the development of youth.
