

Research Corner

Mission of the Research Corner

The purpose of the UAE University SASP Research Corner is to facilitate, support and assist UAEU undergraduate students in their courses' projects, individual and group research or any other inquiries related to their academic work; the research corner services are offered to all colleges and academic disciplines, services consist of the following:

1. Assist undergraduate students in defining their research question or topic
2. Provide consultations for undergraduate students to improve their research skills
3. Locate resources available on campus or outside the University
4. Outreach and collaborate with other institutions to create opportunities for student to conduct projects and research activities (universities, institutions, and schools)
5. Arrange field trips for students (when required)
6. Assist special needs students in their course projects and research
7. Assist students in their data collections (surveys, interviews and questionnaires) and provide statistics available on campus
8. Provide students with all necessary software for their data analysis
9. Assist students to prepare their final projects documents (reports, preparing presentations, and media)
10. Assist to prepare their projects and research portfolio.
11. Help students to prepare for the Annual UAEU students conference.

Student Undergraduate Research Conference

The Research Corner organizes Student Undergraduate Research Conferences annually with the purpose of the conference being the promotion of undergraduate research and creative activities conducted by undergraduate students through their department and college. It is an opportunity for students to show case their research capabilities and endeavors. Further, the Conference gave the opportunity to foster undergraduate research among UAEU students by offering the valuable experience of presenting in a research conference in the smaller, friendlier environment of their own university.
