Diabetes study using rats conducted by UAEU

April 14, 2015

Heart functions and calcium transportation in cells are compromised in diabetics who have a diet high in sugar. This was demonstrated by a study conducted in the UAE with the support of a grant from the Shaikh Hamdan Bin Rashid Al Maktoum Award for Medical Sciences.

University Mission

"Make a positive contribution to the advancement of United Arab Emirates by preparing graduates for future leadership, providing quality education that meets international standards, developing research solutions in areas strategic to the nation, and collaborating effectively with other organizations to promote knowledge in the society."
