Appendix B: Chancellor's Innovation Award Competition- Initial Application Requirements

Chancellor's Innovation Award 10th Competition

Initial Application Requirements 2024/2025

All applications are due electronically in accordance with the announced schedule.

All teams/individuals must submit the following:

1. Cover page that includes the title of the proposed innovation idea, competition category and area of competition.
2. Abstract (maximum 500 words)
 - A short description of the idea.
 - Keywords: (3-5 words)
3. Claims (max 2 pages)
 - A list of novel aspects of innovative ideas in the proposed application.

Appendix C: Chancellor's Innovation Award Competition- Detailed Application Requirements

Chancellor's Innovation Award 10th Competition

Detailed Application Requirements 2024/2025

All proposals are due electronically in accordance with the announced schedule.

- All teams/individuals must submit the following:

1. Cover page that includes title of proposed innovative idea, application ID given by award committee and year.

2. Abstract

- A short description of the idea.

3. Introduction:

- The detailed application starts on a general level with some type of introductory remarks before going into the details of the innovative idea/solution you are proposing. This can be accomplished by providing a frame of reference, a definition, or a discussion of the significance of the idea/solution in the area of interest (i.e., competition areas).
- Provide a statement of the question, issue, challenge, or general problem that you are proposing the innovative idea/solution to address.
- Discuss what other efforts and solutions have been done so far and how your proposed innovative idea/solution relates and differs from that of others idea/solution proposed to tackle same problem/challenge.

4. Survey of Existing Solutions and their limitations

- The survey is written to place your innovative idea/solution within the context of existing knowledge and available solutions for considered problem/challenge. It gives recognition to other scholars, and it also allows you to point out what is original, novel and creative about your proposed solution/idea.
- When you mention other solutions/studies they are usually cited by the author's last name and the date of publication.

5. Methodology and Framework

- Provide a full description of your innovative idea design, as well as the specific methods and procedures used in your innovative solution. The methodology should be sufficiently detailed so that it can be replicated.
- Provide diagrams, charts, and illustrations that you deem appropriate.
- Describe your theoretical approach or type of analysis, if applicable.
- Explain any limitations that your innovative idea/solution might have in terms of the reliability and applicability.

6. References

- List the articles or books that you have cited in your detailed proposal.
