16. Green Information Technology Policy

Overview

Defines Green IT best practices adopted by DoIT.

Scope

The scope of this policy is all DoIT activities, operations, facilities and equipment where green IT best practices can be applied to minimize their negative impact on environment.

Objective

To minimize the negative impact on the environment.

Policy

DoIT is committed to the following:

1. To follow best practices of environmentally sustainable computing.
2. Comply with all applicable laws and regulations.
3. Reduce and eliminate the environmental impacts of our activities is an important part of our mission.
