Procedures of Policy No. (4) - University-Funded Research Grants

1. The awards for University-wide competitive grants programs will be managed by the ORSP, which will circulate a Request For Proposals (RFP) document outlining the process of application and all relevant deadlines, terms & conditions, and the criteria for review for each grant opportunity.
2. After the University-wide grants are awarded, the faculty PIs and their respective Academic Units (Colleges, Institutes, or Centers) will take the primary responsibility for managing the grants.
3. Colleges and other academic units may establish and manage other internally-funded research programs designed for their respective faculty members and undergraduate and graduate students. The ORSP will seek to allocate University funds to the Academic Units to help support their annual grant programs. These may be complemented by other available discretionary funds.
4. The ORSP will be informed regularly of the projects awarded by the respective academic units and terms and conditions for the College-specific grant programs.
