

DEAN'S MESSAGE

The College of Education (CEDU) at United Arab Emirates University (UAEU) is a leading college for the preparation of professional educators in the UAE. The CEDU is guided by the latest scientific research that impacts the education field and is proud of its innovative academic programs which are based on leading international standards for teacher preparation. Through our undergraduate and graduate programs, we strive to meet the educational needs that keep pace with national and international trends in the development of teaching skills and scientific research skills, and at the same time, we are dedicated to preserve UAE national identity and traditional values.

CEDU aspires to strengthen its innovative leadership as a center of academic excellence in the region and is committed to prepare teachers and school leaders. Also, it aims to fully realize the theory-practice nexus by ensuring that the preparation of teachers and school leaders are based on current educational research locally and internationally, and that the continuous development of life-long knowledge, skills, and professional attitudes are in accordance with latest trends in research and globally-recognized education standards. Bachelor, master and doctoral programs at the CEDU contribute in preparing specialized educators across different levels, education leaders and principals with advanced management skills, specialists in education policy analysis, and distinguished educational researchers.

College of Education graduates are distinguished community members who successfully work in different capacities in various ministries, organizations, and foundations around the Emirates, and the world. It's a proven fact that with their unique knowledge, skills, and educational experiences, our alumni can shape the future the UAE is ultimately seeking.

Prof. Hala Elhoweris
Acting Dean, College of Education

STUDENT TESTIMONIALS

My experience at UAEU has been both eye opening and enriching. Specializing in language and literacy studies at the university has allowed me to rethink the definition of literacy as well as reflect on my pedagogical thoughts and practices. I will forever be grateful to be part of a research-driven community that always attempts to address global and regional present-day educational matters.

Fajr Alkouz
PhD Student, Language and Literacy Education

Majoring in Health and Physical Education was one of the best decisions I have ever made. The department has leading experts in different fields, such as biomechanics and exercise physiology, which are very important for me as a future teacher. I will need to know how to influence others and teach them about the beauty of movement and the importance of healthy lifestyle choices for a longer life.

Adnan Alhashimi,
BA, Health & Physical Education

WHY CHOOSE CEDU ?

- 1 Learn from the best**
Faculty in the College of Education have been trained/educated in educational theory and practice in some of the top universities in the world.
- 2 Education is the basis for success in every career**
The skills you will learn in the College of Education will prepare you for excellence in any field. A degree in Education will prepare you to serve society in many different ways, including teaching, social work, business training and youth development.
- 3 Provides unrivalled opportunities**
