**Abstract:**

Public funds are the main support for the work of public facilities and government institutions.

Thus, it was essential to enact legal and administrative procedures to protect such funds.

This study aims to identify the role of state audit institution in control over public funds in the United Arab Emirates. State audit institution is the most effective way to protect public funds.

The UAE legislator has provided State audit institution with numerous safeguards to ensure performing its role with objectivity and independently.

The study was concluded by a definition of the State audit institution and its formation. The study addressed also competencies and procedures of the institution the aim to protect state public funds and to ensure legality of financial transactions and its compliance with legislation and regulations governing such activities.

**Keywords:** State Audit Institution, Public Fund, Administrative Control.
