AGP wins environment honour thrice in a row

For the third consecutive year Al Gurg Paints (AGP) was awarded the Environment Performance Card (EPC) by the Ministry of Environment & Water for meeting the prescribed standards established by the Federal Authority. The EPC is awarded across a wide spectrum of industries that include Oil & Gas organizations, Paints & Chemicals, Packaging, Food Processing, Cosmetics etc.

The recognition comprises a certificate and a memento presented by H. E. Dr. Rashid Ahmed Bin Fahad, Minister of Environment & Water. Over 40 organizations were felicitated at a well appointed function held on January 9, at Intercontinental Hotel - Festival City, Dubai.

Sciencetech partners with DUBAL on energy saving campaign

Sciencetech successfully partnered with DUBAL on its energy campaign, mainly focussed on around 4000 employees of DUBAL towards their continuous commitment towards energy saving. The campaign was held from the December 8-12 at DUBAL premises. Sciencetech had made a huge impact with its presence by having the largest stall present during the event. The event was presided by the top officials of DUBAL and key members of the energy council.

Sciencetech was also given an opportunity to present its history and the vast range of products and solutions related to energy saving and management to the top officials of DUBAL and the members of the energy council. Sciencetech presented its major brands related to energy saving like SIEMENS, OSRAM, LUTRON etc at the event. The stall consisted of product displays, technical catalogues and raffle draws, which brought the right mix of information and entertainment to the visitors. The five day event was a package of energy awareness through seminars, product demonstrations and energy management solutions to the largest aluminium producer in the region.

Sciencetech was also supported by Al Gurg Stationery and Better Life which demonstrated the presence and strength of the Easa Saleh Al Gurg Group LLC to over 4000 employees of DUBAL, which reinforces the group's commitment towards propagating the awareness of energy optimisation and management throughout the region.

GEI conducts employee open forum

A workshop cum open forum was conducted for all employees of Gulf Engineering Industry (GEI) by Yatin Raval, Senior Divisional Manager in coordination with the Human Capital representative. During the workshop, Raval provided a brief overview of the expansion plans and GEI's vision of growth to the assembled staff. The shop floor staff who also attended the meeting were encouraged to raise any concerns openly.

ESAG participates in UAEU career day

Under the sponsorship of SAP Middle East, United Arab Emirates University (UAEU) invited Easa Saleh Al Gurg Group to the Information Technology Industry Day, which took place on January 7, 2014 at 9:00 am at College of IT at UAEU in Al Ain; with the aim to present Emirati students and alumni to government and private IT organisations in order to build ties that lead to mutual awareness, interest, and various opportunities for collaboration.

As a participant organization, Easa Saleh Al Gurg, Group Human Capital Department & IT Department Representatives met around 750 Students, Alumni and Staff. The ESAG team had an opportunity to respond to their inquiries; as well as introducing the organization's vision and scope of work; discussing internships and permanent job opportunities available for students and graduates; outlining career paths for graduates and informing students about the skills needed for specific IT sub-disciplines. The aim of this event was to raise students' awareness about the IT business sector and its crucial role in the development of the knowledge economy in UAE. At the event conclusion, Easa Saleh Al Gurg Group was also honoured as a support partner.

Better Life holds kick-off meeting for 2014

Better Life recently held a kick-off meeting renewing its commitment to growth, productivity and profitability this 2014. After rolling out the year's objectives and strategies, Better Life management headed by Anurag Guglani - General Manager, Ganesh TR - Deputy General Manager and Jerry Joy - Senior Marketing Manager, encouraged employee participation through group discussions on the improvement of incentives, departments and various processes for continued company progress.

A cake cutting ceremony was also held to celebrate the previous year's successes and welcome 2014 in good spirits and healthy camaraderie. Management and employee consultative meetings have also been planned every quarter to further improve the company's processes; the common goal of which is to serve the customers better while ensuring employee productivity and company growth and profitability.

SAP Projects team conducts training session for MIS Report Automation

The SAP BPC/BO Project Team conducted a hands-on training regarding the MIS Report Automation Project for all the entities Finance Managers and Chief Accountants on January 8. Since the inception of the group, financial reports for the management have always been prepared manually. These regular exercises are labour intensive, time consuming and error prone. Hence, the group has initiated a MIS Report Automation Project which utilizing SAP BPC (Business Planning and Consolidation) software.

The project started in mid-2013 and all 2014 MIS Reports will be prepared and generated automatically via the new SAP BPC System. In order to reduce risk and ensure the new system is 100% operational, a parallel MIS Reports run for 2013 December MIS has been scheduled at the end of January. During the parallel run, all entities Finance Managers and Chief Accountants will generate 2013 December MIS Reports from BPC directly and compare them with the manually prepared 2013 December MIS Reports.

Gesture chair from Steelcase synchronizes posture changes

OFIS presents Gesture from Steelcase (USA). Gesture is the first office chair designed to support posture changes specifically influenced by technology devices in use today. Like the human body, Gesture is designed as a system of synchronized interfaces. It supports the additional nine postures which have been discovered as a result of new technologies and user behavior as part of the global posture study conducted by Steelcase.

Gesture takes into account various body types and sitting preferences, quickly adjustable to meet the needs of each individual user. Users can adjust the Gesture chair as easily as adjusting their posture. The Gesture back and seat move as a synchronized system moving with each user to provide continuous and persistent support. The back cradles the user no matter the posture or device. The Gesture arm moves like the human arm, which allows users to be supported in any position. Arms and shoulders remain supported when texting on a smart phone, typing on a keyboard or swiping a tablet.

The Gesture seat brings comfort all the way to the edges. It is flexible at the perimeter to allow users to sit in a range of postures without obstruction. Gesture takes into account various body types and sitting preferences, quickly adjustable to meet the needs of each individual user. Users can adjust the Gesture chair as easily as adjusting their posture.
