

FACILITIES AND RESOURCES OF GEOLOGY DEPARTMENT

Applied Geophysics Lab

Geometrics Portable Proton Magnetometer G856AX, multi-channel Geometrics Seismograph and Syscal Pro resistivity meter

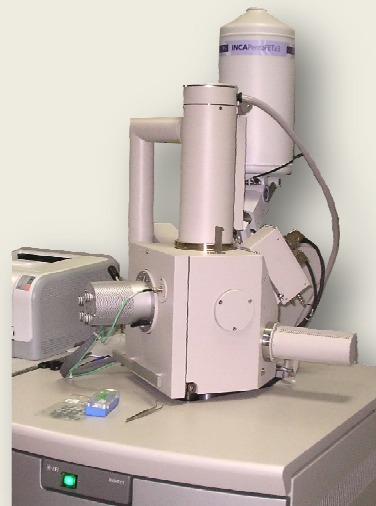

Petroleum Geochemistry Lab

Spectrophotometer, a LECO CS-200, a Varian CP-3800 GC Pyrolysis instrument, automated permeameter and prosimeter and plugging machine

Geochemistry Lab

X-Ray Diffraction, X-Ray Fluorescence, Scanning Electron Microscope and ICP-OES

Fluid Inclusion Lab

Supports the study of fluid inclusion in minerals

GIS and Remote Sensing Lab
