1. About the Award

The Chancellor's Innovation Award Competition offers UAEU community an opportunity to really make a difference, to contribute to the success and sustainability of the United Arab Emirates economy, and to enhance the welfare of the people at the United Arab Emirates. This competition engages students, faculty and employees at UAEU in a platform that supports innovative thinking, scaling, and research that deepens both existing and new innovations to provide creative and cutting-edge solutions to counter challenges in UAE.

The competition aims at raising awareness of innovation and its potential to foster growth, entrepreneurship and provide solutions for challenges in the United Arab Emirates in the following areas: renewable energy, transportation, education, health, water resources, space, technology, social innovation, and administrative innovation.

2. Competition Areas

Renewable Energy

Providing innovative solutions to renewable energy industry and providing innovative contributions into the applied research in clean technology.

Technology

Providing innovative solutions to the IT industry to advance the development and use of technology to improve products and enhance services.

Water Resources

Providing innovative solutions, which address the problem of water scarcity in the United Arab Emirates.

Education

Providing innovative solutions to educational institutions and universities with the goal of equipping students with innovation skills such as critical thinking, analytical thinking, problem-solving skills and creativity.

Health

Providing innovative solutions to health care industry in treatments and drugs, in hospital and care systems, in primary and acute care pathways and in chronic disease management.

Transportation

Providing innovative solutions for ground, air and sea travel as well as logistics with the goal of providing new products and services while making procedures more effective and save time.

Space

Providing innovative solutions for the space industry and providing innovative contributions into the applied research in space technology.

Social Innovation

Providing innovative solutions to social and environmental authorities addressing issues related to community development, environmental pollution, species protection, security, living conditions, social investment, and employment.

Administrative Innovation

Providing innovative solutions pertaining organizational processes, routines, structures, or systems to enhance an organization's capacity to meet its obligations while increasing its efficiency or effectiveness to deliver a service or a product.

3. Competition Categories

Faculty

This category includes faculty working full-time at the United Arab Emirates University

Students

This category includes all enrolled students at the United Arab Emirates University

Staff

This category includes staff working full-time at the United Arab Emirates University

Appendix B: Chancellor's Innovation Award Competition- Initial Application Requirements

Chancellor's Innovation Award Competition 2020/2021

Initial Application Requirements

- All applications are due electronically in accordance with the announced schedule.
- All teams/individuals must submit the following:
 1. Cover page that includes title of proposed innovation idea, the competition category and area of competition.
 2. Abstract (maximum 500 words)
 - A short description of the idea.
 3. Claims (max 2 pages)
 - A list of novel aspects of innovative idea in the proposed application.

Appendix C: Chancellor's Innovation Award Competition- Detailed Application Requirements

Chancellor's Innovation Award Competition 2020/2021

Detailed Application Requirements

- All proposals are due electronically in accordance with the announced schedule.
- All teams/individuals must submit the following (30 pages max):
 1. Cover page that includes title of proposed innovative idea, application ID given by award committee and year.
 2. Abstract (maximum 500 words)
 - A short description of the idea.
 3. Introduction:
 - The detailed application starts on a general level with some type of introductory remarks before going into the details of the innovative idea/solution you are proposing. This can be accomplished by providing a frame of reference, a definition, or a discussion of the significance of the idea/solution in the area of interest (i.e., competition areas).
 - Provide a statement of the question, issue, challenge or general problem that you are to proposing the innovative idea/solution to address.
 - Discuss what other efforts and solutions have been done so far and how your proposed innovative idea/solution relates and differs from that of others idea/solution proposed to tackle same problem/challenge.

4. Survey of Existing Solutions and their limitations

- The survey is written to place your innovative idea/solution within the context of existing knowledge and available solutions for considered problem/challenge. It gives recognition to other scholars and it also allows you to point out what is original, novel and creative about your proposed solution/idea.
- When you mention other solution/studies they are usually cited by the author's last name and the date of publication.

5. Methodology and Framework

- Provide a full description of your innovative idea design, as well as the specific methods and procedures used in your innovative solution. The methodology should be sufficiently detailed so that it can be replicated.
- Provide diagrams, charts, and illustrations that you deem appropriate.
- Describe your theoretical approach or type of analysis, if applicable.
- Explain any limitations that your innovative idea/solution might have in terms of the reliability and applicability.

6. References (max 1 page)

- List the articles or books that you have cited in your detailed proposal.
