

Job Opportunities at Baker Hughes

Dear FOE and Chemistry Graduates,

If you are looking for a challenging career in a multinational organization, the iWIL Center would like to inform you that Baker Hughes is looking for young and talented individuals who can form part of their company.

Excel, Achieve, Develop – LEAD. These are the building blocks of Baker Hughes' three-year program to turn versatile engineering and science graduates into talented business professionals within the oil and natural gas industry. Significant field exposure and structured on-the-job training are key elements of LEAD. You can expect to spend extended periods of time in the field, observing or assisting under supervision in a range of jobs.

Baker Hughes is a top-tier oilfield service company with a century-long track record. With more than 35,000 employees in 90 countries, the local geoscientist teams work side by side with customers to engineer reliable application-specific products and services that create more value from the reservoir whether the application is deepwater, unconventional hydrocarbons or production and water management. The company's history of technology innovation is a cornerstone of its success. Local teams are supported by global centers of excellence where scientists push the boundaries of value-adding technology to find solutions for progressively more complex technical challenges.

Eligibility:

To qualify for LEAD, you will need a bachelor or postgraduate degree in an Engineering, Science or Applied Science discipline gained in the last 12 months. Fluency in English, both written and verbal, a valid driving license and a clean driving record, and a willingness to relocate are essential.

The company offers:

- A competitive compensation package.
- Individual tasks and responsibilities along with close mentoring and coaching.
- Substantial on-the-job learning in different parts of the organization.
- Both personal and professional growth and a possibility to have an exciting career within a global company.

This is a great opportunity, don't miss it! Find out more and apply online by visiting
