

The Microsoft Gulf Intaleq Internship programme is designed to provide **business and technical students** entering their final year of university with work experience at Microsoft that will help them to transition between academic and professional life. Students who are successful in the Intaleq program may also have the opportunity to join Microsoft's Graduate Program – Microsoft Academy of College Hires (MACH) once they have completed their studies and become a part of Microsoft full time. The Intaleq program gives

students a mix of both real life on the job learning and classroom skills training that will aim to give them the opportunity to grow their professional experience.

The Opportunities:

Opportunities in the UAE for 2011 are to be confirmed but may include

- *Associate Account Manager* responsible for driving opportunities with the Public Sector Account Manager and presenting offerings for Academic products in the education system.
- *Associate Technology Specialist* responsible for driving opportunities with the Account Manager and presenting Microsoft Technologies to customers.
- *Associate Project Manager* responsible for assisting the Project Manager in project management & planning, coordinating resources and assisting in customer meetings.

Application Requirements:

To be eligible to apply for Intaleq opportunities you must:

- Be a pre final or final year student of a degree program related to business, sales & marketing or information technology
- A GPA equivalent to 3.0 or above
- Have a passion for technology
- Fluent Arabic, English and interpersonal, presentation and communication skills
- Be a strategic thinker
- Be able to balance individual creativity with working as a team
- Have a high degree of customer focus

Microsoft supports workforce diversity and welcomes applications from Gulf National and Female graduates.
