

Step (5)

Fill in your details. confirm the email address is correct and valid as you will need to verify this later. Once done, click on “Next”.

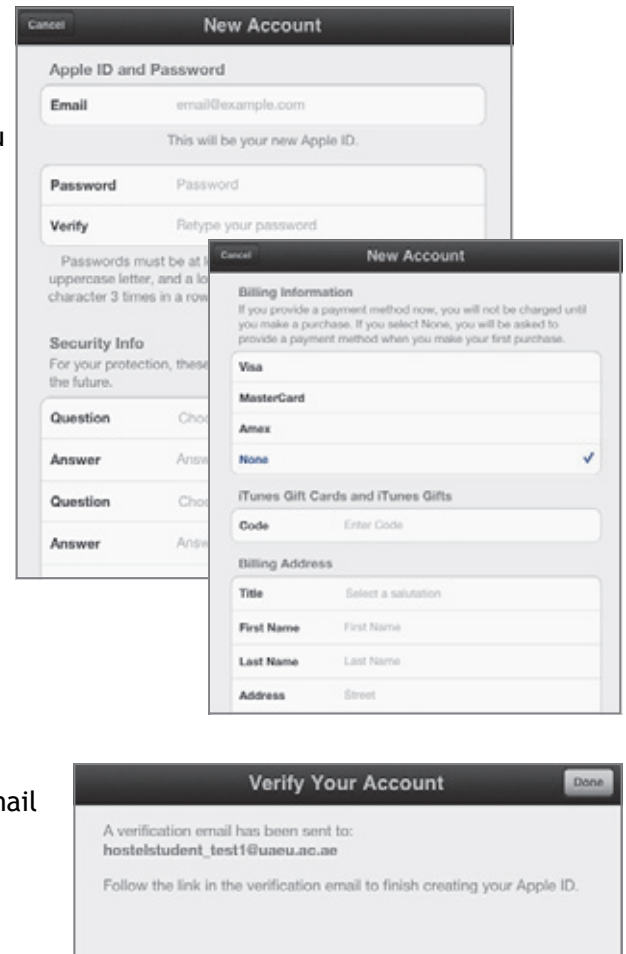

Step (6)

For free accounts, change the payment method to “None” or select your card type and enter the relevant details. Fill in your “Billing Address” and “Phone” and click on “Next”.

Notes: iTunes Gift Cards are not applicable to UAE Store, so leave it blank. If you do not see “None” as an option, double check that you chose a FREE app in Step 1

Step (7)

You are almost done with your Apple ID. You just have to check your email and verify your account from there. Congratulation.

The image displays three screenshots from the Apple ID creation process. The first screenshot, titled 'New Account', shows the 'Apple ID and Password' section with fields for Email (email@example.com), Password, and Verify (Retype your password). The second screenshot, also titled 'New Account', shows the 'Billing Information' section with options for payment method (Visa, MasterCard, Amax, None) and a field for iTunes Gift Cards. The third screenshot, titled 'Verify Your Account', shows a verification email address (hostelstudent_test1@uae.ac.ae) and a link to finish creating the Apple ID.

iTunes

A popular media player software from Apple for Mac and Windows. iTunes is widely used by millions of people to organize the music they play on their computers as well as all the content they download to their iPods, iPhones and iPads. It integrates Apple's online store for purchasing songs, videos and applications, and it administers the copy protection that was formerly applied to purchased songs.

iCloud

It is a free cloud storage service from Apple which offers you the ability to store music, photos apps, contacts, documents, etc on the Internet rather than on local storage such as your computer or external storage devices.
