

IT Procurement Committee

The internal UITS procurement committee has been formed to ensure that all IT procurements from start to finish are aligned with University's procurement policy and procedures.

UITS RFQ Committee

The purpose of this committee is to make sure that all of the mentioned contractual, technical information and procedures within any UITS RFQ are correct and according to our policies, to make sure that requester is requesting the right information and according to UITS requirements.

UITS Social Committee

The purpose of the UITS Social Committee is to build the UITS staff through social events while fostering a sense of family. UITS believe that the social events will build a stronger sense of friendships with all IT staff involved. All social events will allow social interaction with peers, to generate more awareness and build UITS family.

IT Human Resources Committee

The purpose of IT HR Committee is to ensure that the UITS recruiting process is aligned with University's HR policies and procedures. The committee is responsible of reviewing and evaluating all hiring process including interviews and to make sure the recruiting is conducted based on the UITS hiring guidelines.

UITS Newsletter Committee

The purpose of the UITS Newsletter committee is to report on IT activities and to provide information about IT issues that may be of interest to University community. The UITS Newsletter (ThinkIT) is published quarterly on UITS website and typically includes information about IT events, articles about technology, information of the current and future campus-wide IT projects.

“The extensive deployment of information & communication technology within UAEU can bring a considerable impact on the educational and social success of our community as well as our nation's productivity and growth”
