

- Next, swipe up from the bottom bezel on your iPad to reveal the new iOS 7 Control Center.
- Tap the AirPlay button and select the device you want to connect to - Smart Board MPA (e.g: Air-H0019-4). Turn on the Mirroring option to send the image of your screen to the projector.

iOS 8 will support "peer-to-peer AirPlay discovery and playback," which means that you won't need to be connected to a wireless network to use AirPlay. That's a really nice and practical evolution of Apple's wireless media streaming protocol. It will help us immensely in fine tuning our present arrangement.
