

DEAN'S MESSAGE

The main purpose of medical schools is to train and equip physicians, clinical and scientific staff and medical researchers to deal with present and future health needs across the globe. The primary mission of the College of Medicine & Health Sciences (CMHS) at the United Arab Emirates University (UAEU) is to achieve this by educating physicians and preparing them for advanced training in every field of medicine. In addition, CMHS offers opportunities for scientists to work in a research-intensive environment, and to acquire Master's and Doctoral level qualifications in the medical field. CMHS activities include undergraduate and postgraduate education, continuing medical education, continuing professional development, research and the delivery and enhancement of health promotion and medical services.

The college is located in close proximity to the main university campus at the Tawam Medical Campus, adjacent to Tawam Hospital. It offers state-of-the-art facilities and excellent support services. CMHS undergraduate and postgraduate degrees are recognized and accepted by institutions in many countries, including the US Educational Commission for Foreign Medical Graduates, American, Canadian and European universities and the Royal Colleges of Medicine. We have developed strong partnerships with several overseas universities, including the University of Oxford, Harvard University, Loma Linda University and the Japan National University, amongst many others.

The standard of teaching and learning is one of the highest in the region. You will be part of an elite academic group learning from outstanding university faculty who are global experts and researchers at the forefront of their fields. Your academic career will be enriched by world-leading research. CMHS has received numerous awards, including the Hamdan Award for 'Best Medical College in the Arab World'. Our faculty members have won several prestigious awards and continue to receive funding from major international and national research funding agencies such as the Terry Fox Foundation and the National Research Foundation.

CMHS recognizes the fundamental importance of global health as a key issue for the 21st Century. We are fully committed to making a significant contribution to this at both a national and international level. When you choose to study at CMHS, we will do everything possible to foster your personal and intellectual growth and to prepare you to lead a fulfilling life beyond the university.

Prof. Juma Alkaabi
Acting Dean of College of Medicine and Health Sciences

QUICK FACTS

Estd.
198

DISTINGUISHED ALUMNI

H.E. Dr. Ahmed Mubarak Al Mazrouei
Secretary-General of the Executive Council

Hamdan Award for Best Medical College in the Arab World

1 Undergraduate Program
3 Master's Programs
2 PhD Programs

Student Clubs

109 Publications
2013 to 2017

11 National and International Faculty

High quality teaching environment with modern laboratories and equipment.

WHAT PROGRAMS DO WE OFFER?

UNDERGRADUATE PROGRAM:

Doctor of Medicine (MD)

MASTER'S PROGRAMS:

Master in Medical Sciences (M.Med.Sci.) offering 3 tracks:

- Pharmacology & Toxicology Track
- Biochemistry and Molecular Biology Track
- Microbiology & Immunology Track

Master of Public Health (MPH)

Doctor of Pharmacy

PhD PROGRAMS:

Doctor of Philosophy in:

- Public Health and Occupational Health
- Biomedical Sciences

WHAT CAN I DO WITH MY DEGREE?

Public Health Specialist	Psychiatrist
Surgeon	Clinical Oncologist
Medical Researcher	Dermatologist
Cardiologist	Gynaecologist
Clinical Radiologist	Obstetrician
General Practice Doctor	Ophthalmologist
Hospital Doctor	Paediatrician
Pathologist	And Many More...
Anesthetist

STUDENT TESTIMONIALS

"CMHS offers a wide array of opportunities for students to advance their learning and skills in the form of lab work, campaigns, workshops, seminars, research, community work, etc. The doctors and faculty are very professional and supportive, while the facilities are of a world-class standard. I would highly recommend studying in the CMHS for your future career."

Omar Abdulla Shehab,
Doctor of Medicine

"The journey through medical school requires effective time management, hard work and dedication. The professors challenged me but gave me an understanding of the subject which I never thought possible. Now I am equipped with the essential knowledge and skills to start my clinical training."

Abdulla Al Zubaidi,
Doctor of Medicine, Year 4

WHY CHOOSE CMHS?

- Diverse career opportunities for graduates**
After graduation, there is a broad range of opportunities for future jobs in the field of medicine. Upon finishing medical school, you can choose to work in hospitals, science institutes, public health care providers or be part of the medical department of some other professional field.
- The ability to help people directly and make them happier**
Most doctors would say that there is no greater joy than the one you feel when you manage to help a very sick patient or when you are part of a group of scientists who discover a new medicine for a certain disease.
- Opportunities to study abroad**
Students are offered 4-8 week electives that involve studying abroad. Students get to experience another culture and to see how medicine is practiced in other countries.
- Get involved in cutting-edge research**
The end of your medical studies does not mean the end of your learning. The CMHS provides its students with the chance to participate in summer research work. This can be either in the college, with senior research professors, or overseas working in well-known international laboratories. Moreover, the college provides students with opportunities to enhance their experience with Continuous Medical Education (CME).
- Status and respect in society**
Doctors are seen as symbols of dignity, responsibility and service to the community.
- Excellence**
UAEU is ranked in the best 400 universities in the world and is internationally accredited by WASC.
- You will learn from the best**
Our elite team of professors and researchers have graduated from highly reputable international universities.
- State-of-the-art scientific laboratories**
The CMHS provides its students with world-class facilities that include an imaging unit, an analytical and molecular unit, a cellular biology facility and an animal vivarium unit. There is also an animal research facility, an dissection laboratory, a medical simulation center and an evaluation and assessment center.
- Ample opportunities to get involved**
CMHS offers a number of student clubs, organizes many field trips and has a wealth of extra-curricular activities to enrich your university experience.
