

DEAN'S MESSAGE

Welcome to the College of Business and Economics (CBE) at the United Arab Emirates University (UAEU). We are honored that you are interested in continuing your education with us.

High-level business professionals serving on our Executive Advisory Board have guided us in establishing a vibrant and supportive learning environment with cutting-edge curricula that has enhanced our reputation and the employability of our graduates. Our faculty experts research a broad range of topics that provide insights into new ways of thinking and learning for business and society. Our faculty and professional staff's skills, knowledge and commitment combine to enrich the student learning experience.

The College is recognized around the world because of our accreditation from AACSB International – The Association to Advance Collegiate Schools of Business (AACSB) - the premier accrediting body for business programs. It is a testament to the College's excellence and its commitment to continuous improvement. Today, we are the only business unit in the Middle East, and one of only 182 institutions in the world, to hold both business and accounting accreditation. Less than five percent of business programs globally are accredited by AACSB.

The CBE educates more than 3,000 students annually across 5 undergraduate degree programs, two master's programs, and one doctoral program, each overseen by a dedicated program coordinator and all academically driven by faculty members from 5 interdisciplinary departments. Our departments are:

Innovation, Technology & Entrepreneurship
Leadership & Organizational Agility
Analytics in the Digital Era
Accounting & Finance
Innovation in Government & Society

We continually strive to improve our teaching and educational experiences for our students (both in the classroom and beyond) in order to provide:

- Encouraging guidance from expert faculty
- Instruction with a global consideration
- Leadership and managerial training from group work and participation in organizations and clubs
- Practical learning through invited speakers, field trips, projects, study abroad programs and internships
- Professional support and career development

We have much to offer and want to help you achieve your professional goals and dreams. We look forward to welcoming you to the College and supporting you as you build your future.

Prof. Frank Bostyn
Dean
