DEAN’S MESSAGE

The main purpose of medical schools is to train and equip physicians, clinical and scientific staff and medical researchers for dealing with present and future health needs across the globe. The primary mission of the College of Medicine & Health Sciences (CMHS) at the United Arab Emirates University (UAEU) is to achieve this by educating physicians and preparing them for advanced training in every field of medicine. In addition, CMHS offers opportunities for scientists to work in a research-intensive environment, and to acquire Master’s and Doctoral level qualifications in the medical field. CMHS activities include undergraduate and postgraduate education, continuing medical education, continuing professional development, research and the delivery and enhancement of health promotion and medical services.

The college is located in close proximity to the main university campus at the Tawam Medical Campus, adjacent to Tawam Hospital. It offers state-of-the-art facilities and excellent support services. CMHS undergraduate and postgraduate degrees are recognized and accepted by institutions in many countries, including the US Educational Commission for Foreign Medical Graduates, American, Canadian and European universities and the Royal Colleges of Medicine. We have developed strong partnerships with several overseas universities, including the University of Oxford, Harvard University, Loma Linda University and the University of Malaya, amongst many others.

The standard of teaching and learning is one of the highest in the region. You will be part of an elite academic group learning from outstanding university faculty who are global experts and researchers at the forefront of their fields. Your academic career will be enriched by world-leading research. CMHS has received numerous awards, including the Hamdan Award for ‘Best Medical College in the Arab World’. Our faculty have also won several prestigious awards and continue to receive funding from major international and national research funding agencies such as the Terry Fox Foundation and the National Research Foundation.

CMHS recognizes the fundamental importance of global health as a key issue for the 21st Century. We are fully committed to making a significant contribution to this at both a national and international level. Should you choose to study at CMHS, we will do everything we can to foster your personal and intellectual growth and to prepare you to lead a fulfilled life beyond the university.

Prof. Dennis Templeton
Dean, College of Medicine
and Health Sciences

OVERVIEW OF THE COLLEGE

The College of Medicine & Health Sciences at UAEU was established in 1984. CMHS is listed by the World Health Organization (WHO) and the UAE Ministry of Health, and accredited by the General Medical Council (GMC).

CMHS has an excellent team on board that includes outstanding national and international faculty members, researchers supported by external grants and additionally teaching assistants on external scholarships. You will find our faculty members have graduated from some of the best universities in the world and continue to be engaged in a strong research culture.

The college has six basic science departments (anatomy, physiology, biochemistry, microbiology, pathology and pharmacology), and seven clinical departments (internal medicine, surgery, pediatrics, family medicine, obstetrics & gynecology, psychiatry and an Institute of Public Health). A separate Department of Medical Education provides advice, training, and support for the medical undergraduate curriculum, and also for an increasing number of postgraduate clinical training initiatives. In addition to this, a well-resourced on-site National Medical Library facilitates teaching and research for students, staff and adjunct clinical and scientific staff from hospitals and affiliated institutions.

Recent initiatives by the college include the establishment of a well-equipped Clinical Simulation Centre, and a state-of-the-art Examination and Assessment Center. We have also launched a center of excellence for national and global health (Zayed Center for Health Sciences), with further plans in place for a second center for genetics and diseases (Center for Molecular Medicine). The college continues to support the UAE in its commitment to being a knowledge-based economy in which education and research play a critical role.

“Skills, knowledge, practice, professionalism, education, punctuality, responsibility, adaptation, motivation, team work, experience, persistence, determination, curiosity, sacrifice, humbleness, gratefulness, generosity, modesty, honesty, ethics, and time management are few but not all of the lessons of life that I have been taught at the College of Medicine and Health Sciences at UAEU.”

Amira Al Ahmadi,
Doctor of Medicine, Year 3

ACADEMIC PROGRAMS

UNDERGRADUATE PROGRAMS:
Bachelor of Medical Sciences (B.Med.Sci)

PROFESSIONAL DEGREES:
Doctor of Medicine (MD) – (MBBS Equivalent)
Doctor of Pharmacy (Pharm.D)

MASTER'S PROGRAMS:
Master in Medical Sciences (M.Med.Sci.) offering 3 tracks
► Pharmacology & Toxicology Track
► Biochemistry and Molecular Biology Track
► Microbiology & Immunology Track
Master of Public Health (MPH)

PHD PROGRAM:
Doctor of Philosophy

UNDERGRADUATE INFORMATION

ADMISSION CRITERIA

There are two entry levels to our undergraduate programs:

► Requirements for Bachelor Degree Holders

- The program is limited to UAE Nationals.
- The applicant must hold a bachelor's degree from UAEU or an equivalent institution recognized by the UAE Ministry of Higher Education and Scientific Research with a GPA of 3.0 or higher (includes 2nd class honors from a recognized institution), earned within the past three years.
- The applicant must hold an IELTS score of 6.0 or above or a TOEFL iBT score of 81 or above.
- The applicant must achieve a passing score on the CMHS written admission exam or the Medical College Admission Test (MCAT). The knowledge areas reflected in these exams are English, general chemistry, organic chemistry, physics and human biology .
- Pass the CMHS interview.

► Requirements for Admission from High School

- This program is limited to UAE Nationals.
- The applicant must have obtained a minimum of 85% on their grade 12 High School Certificate.
- Upon applying to the UAEU, the student will be initially accepted into the Medicine College and will sit an entrance exam at the beginning of the academic year. The written exam is in English and covers general information from high school.
- Applicants should score 150 or above in the CEPA English exam and successfully pass the CEPA math placement test.
- Applicants must pass the CMHS interview.

Success at UAEU requires proficiency in both the Arabic and English languages. Students admitted to the University are placed either directly into the undergraduate degree program or into the University Foundation Program (UFP). UFP is the bridge between high school and the degree programs offered at UAEU. The placement in a suitable UFP level will depend on scores in the UFP Placement Exams. There are three levels in English, and two levels in mathematics and Arabic.

"Joining the College of Medicine and Health Sciences at UAEU has always been a dream of mine since I was a teenager. Now that dream has can true, I can confidently say that I made the right decision. I have learned many valuable skills and knowledge to aid my career. The courses I studied were challenging and demanding, yet also enjoyable and fascinating. I could not have done it without the help and support of my instructors. I now know that hard work will lead to a bright future!"

Mey Khalfan,
Doctor of Medicine, Year 6

To be considered for direct admission to an undergraduate degree program, applicants must satisfy the following requirements:

- ▶ Proof of English language proficiency which may take one of the following forms: one of the following forms:
 - A minimum TOEFL score of 500/61
 - An minimum IELTS score of 5.0
- ▶ Pass a placement test in mathematics (algebra and pre-calculus) and Arabic language.

**Please note that our student assessments are bench-marked against international standards – UAEU Medical College Admission Test for entry, and USMLE or equivalent for in-training progress and exit assessment.*

Interested candidates should use the common National Admissions and Placement Office (NAPO) application form to apply to UAEU. The form is available from secondary schools, UAEU's Admissions Office or NAPO.

GRADUATION REQUIREMENTS

The graduation requirements for the Bachelor of Medical Sciences program requires the student to successfully complete 120 credit hours and takes approximately three years to complete. Students must also successfully pass their final exams with a minimum GPA of 2.0.

The graduation requirements for the Doctor of Medicine program require the student to successfully complete a four year program once the student has completed a two year pre-medical program at CMHS or has obtained a Bachelor of Medical Science degree. Students must also successfully pass a final integrated examination which is bench-marked against an off-the-shelf USMLE standard examination provided by the National Board of Medical Examiners (NBME), USA. Students are also required to pass the USMLE Step 1 (or its equivalent) upon completion of the pre-clinical phase and the USMLE Step 2 (or its equivalent) upon completion of the clinical phase

INTERNSHIPS

An internship year after graduation is required for registration as a medical practitioner. Interns are assigned to an approved UAE hospital where they experience intensive one year hands-on training by rotation through several clinical specialties including pediatrics, psychiatry, surgery, internal medicine, family medicine, obstetrics, gynecology and radiology.

CAREER OPPORTUNITIES

Our graduates have a choice of career options available to them. They can choose to be hospital specialists, family physicians, or public health professionals. Those interested in research and teaching can register for a Master's and/ or PhD program locally or overseas and follow an academic career path as a university professor. Some may also choose to work as physicians in government ministries and health authorities, the armed forces or as medical officers in industry.

UNDERGRADUATE ACADEMIC PROGRAMS

BACHELOR OF MEDICAL SCIENCES (B.MED.SCI)
 This is a three year minimum degree program which involves two years of the pre-medical program, followed by one year of research and course work in basic medical and para-clinical sciences. It provides the foundation for further academic training leading to a Master’s or PhD program or a career in biomedical sciences .

DOCTOR OF MEDICINE (MD) – (MBBS EQUIVALENT)
 This is a four year MD program that is preceded by either a two year pre-medical program, or a Bachelor of Science degree. It is made up of two components - a pre-clinical program where pathology, microbiology, pharmacology, immunology and applied anatomy, physiology and biochemistry are taught in an integrated fashion across 9 themes; and a clinical program where the core clinical specialties are taught in clerkships varying in length from 4 to 8 weeks. The clinical program includes an 8 week block of external elective experience. Each of the two programs normally takes two academic years to complete. This is followed by a one year internship, prior to seeking admission into residency programs.

“The journey through medical school requires effective time management, hard work and dedication. The professors challenged me but gave me an understanding of the subject which I never thought possible. Now I am equipped with the essential knowledge and skills to start my clinical training.”

Abdulla Al Zubaidi,
 Doctor of Medicine, Year 3

GRADUATE INFORMATION

CMHS offers graduate programs in Master of Medical Sciences (M.Med.Sc.), Master of Public Health (MPH), Doctor of Pharmacy (Pharm.D), and PhDs. These programs are open to UAE nationals and non-nationals.

MASTER'S PROGRAMS

Master of Medical Sciences (M.Med.Sc.)

The Master of Medical Sciences program (M.Med.Sc.) is organized into three tracks:

- ▶ Biochemistry & Molecular Biology
- ▶ Microbiology & Immunology
- ▶ Pharmacology & Toxicology

The Master of Medical Sciences programs are designed to cater to the needs and aspirations of individual students, the needs of relevant institutions in the UAE, and the current strengths in different disciplines at the CMHS. The programs offers three tracks that differ according to the research interests of faculty members, however, their mission is the same: to develop scientists who will contribute to the formation of new knowledge in the biomedical disciplines through creative research and scholarship. This is accomplished through a curriculum of course work and research training that prepares our students to critically evaluate existing knowledge and to advance the frontiers of knowledge in biomedical sciences.

MASTER OF PUBLIC HEALTH (MPH)

The program is designed to meet the developmental needs of professionals working in the field of public health or related fields such as occupational health, environmental

health, primary care or health promotion. It is appropriate for those working in health and social care organizations, including health authorities, government departments and health service providers such as hospitals and clinics. The course is also appropriate for those who wish to pursue a career in academic public health or to learn more about epidemiology and statistics for research or health service evaluation. The program is part-time and cannot be completed in less than three years. Students register for not more than six course credits per semester. The program is modular with teaching taking place during intensive courses 0830-1700 Wednesday-Saturday. The program is not suitable for full-time students.

DOCTOR OF PHARMACY (PHARM.D)

This program was launched in 2010 and the curriculum is based on the general guidelines of the Accreditation Council for Pharmacy Education (USA). The core curriculum for this program is constructed to ensure that pharmacists are exposed to a series of educational experiences designed to achieve clinical competencies comparable to those of students completing the Doctor of Pharmacy degree program in accredited US universities. The clinical experiences are based on the general recommendations of the American Society for Health-System Pharmacists.

ADMISSION CRITERIA

All programs require a certified transcript from each institution of post-secondary education attended. The transcript should show a record of all academic work

completed and must be submitted by the college or university directly to the Office of the Assistant Dean for Scientific Research & Graduate Studies. Additional admission requirements for each program are as follows:

MASTER OF MEDICAL SCIENCES (M.MED.SC.) & MASTER OF PUBLIC HEALTH (MPH)

The following are the minimum requirements for admission to the Master's Programs at UAEU:

- ▶ A Bachelor's degree or its equivalent from an accredited university recognized by the UAE Ministry of Higher Education and Scientific Research, in an area appropriate to the academic area to which application is being made.
- ▶ A cumulative Grade Point Average (GPA) of 3.0 on a 4.0 scale or equivalent, in all undergraduate work.
- ▶ A score of at least 6.0 on the IELTS (International English Language Testing System) Academic exam or equivalent, for all disciplines delivered predominantly in English. This test score must be less than two years old at the time of application, with the following exceptions:
 - A native speaker of English who has completed his/her undergraduate education in an English-medium institution and in a country where English is the official language; or
 - An applicant with an undergraduate degree from an English-medium institution who can provide evidence of acquiring a minimum TOEFL score of 500 on the paper-based test, or its equivalent, at the time of admission to his/her undergraduate program.
 - A minimum IELTS score of 4.0 or equivalent is required for admission into a Master's Program where the language of instruction is Arabic.
- ▶ Pass an interview in English.

DOCTOR OF PHARMACY (PHARM.D)

- ▶ Applicants must have a Bachelor's degree in Pharmacy from a school of pharmacy recognized by the UAE

Ministry of Higher Education or accredited by ACPE (Accreditation Council on Pharmacy Education) or equivalent.

- ▶ Be eligible for licensure by the Ministry of Health, or local authorities in the UAE or in the United States.
- ▶ Applicants are expected to have a GPA of 3.0 in core courses in a pharmacy curriculum. Applicants who passed the North American Pharmacy Licensing Exam for Pharmacists (NAPLEX®), the UAE National Licensing Exam for Pharmacists or who have demonstrated appropriate clinical pharmacy skills may be exempt from the GPA requirements.
- ▶ A score of at least 6.0 on the IELTS (International English Language Testing System) Academic exam or equivalent, for all disciplines delivered predominantly in English. This test score must be less than two years old at the time of application, with the following exceptions:
 - A native speaker of English who has completed his/her undergraduate education in an English-medium institution and in a country where English is the official language; or
 - An applicant with an undergraduate degree from an English-medium institution who can provide evidence of acquiring a minimum TOEFL score of 500 on the paper-based test, or its equivalent, at the time of admission to his/her undergraduate program.
 - A minimum IELTS score of 4.0 or equivalent is required for admission into a Master's Program where the language of instruction is Arabic.
- ▶ Applicants will be required to have a formal interview in English with the Admissions Committee of the program.

Under certain conditions admission into a Master's program may be granted if the GPA or the IELTS score is less than the minimum requirement.

** These requirements are subject to the general university criteria for admission to graduate programs and may be updated regularly. Please refer to the university website for further details.*

FEE STRUCTURE

- ▶ AED 57,800 for the Master of Medical Sciences
- ▶ AED 61,400 for the Master of Public Health
- ▶ AED 104,200 for the Doctor of Pharmacy

GRADUATION REQUIREMENTS

Students must complete the following requirements before graduation:

- ▶ M.Med.Sc. - 36 credit hours (2-3 years full-time).
- ▶ MPH - 34 credit hours (3-4 years part-time).
- ▶ PharmD - 52 credit hours (2 years full-time, 4 years part-time).
- ▶ All specified courses for a given track must be successfully completed.
- ▶ A minimum GPA of 3.0 out of 4.0 is required for graduation.

PHD PROGRAM

Doctor of Philosophy

The PhD program involves conducting coursework over a period of up to 2 years, followed by a comprehensive examination evaluating the breadth and depth of the student's knowledge of his or her discipline, as well as the student's scholarly potential. Passing the comprehensive examination results in the student being recommended to advance to candidacy followed by research and the writing of a dissertation over a further three to a maximum four year period .

ADMISSION CRITERIA

- ▶ A Master's Degree from an accredited university recognized by the UAE Ministry of Higher Education and Scientific Research, in an area appropriate to the academic area to which application is being made.
- ▶ A minimum cumulative GPA of 3.3 on a 4.0 scale or equivalent, in undergraduate or previous graduate

programs at an accredited university recognized by the UAE Ministry of Higher Education and Scientific Research.

- ▶ A score of 6.5 or higher on the IELTS Academic exam or equivalent for all disciplines in which the main language of instruction is English or the dissertation must be written in English. This test score must be less than two years old at the time of application.
- ▶ In addition to the above, applicants are recommended to submit the official score of the Graduate Record Examination (GRE) General Test (optional), which may be taken into account in the ranking of applicants for admissions or scholarships .
- ▶ Two letters of recommendation.

**Please note that these admission requirements may be subject to change. Please refer to the UAEU website for further details.*

FEE STRUCTURE

The total tuition fees for the PhD program are based on the following:

- ▶ AED 2400 per credit hours
- ▶ Scholarships and assistantships are available for nationals and non-nationals on a competitive basis.

GRADUATION REQUIREMENTS

- ▶ Students must complete a total of 54 credit hours.
- ▶ Successful completion of all course work is required.
- ▶ Students must achieve a minimum GPA of 3.0.
- ▶ Students must pass the comprehensive/candidacy examination.
- ▶ Students must successfully defend their thesis through public presentation and later by a closed session with the Thesis Examination Committee.

RESEARCH CAPABILITIES

The College of Medicine & Health Sciences continues to contribute to UAEU’s mission of being a leading research-intensive university . Our current research efforts are targeted towards treating health issues relevant to the UAE and the wider world, e.g. diabetes, cardiovascular & neurological diseases, genetic & immunological diseases, cancer, injuries and accidents. Research can either be laboratory-based or clinical/ community based.

A range of research grants are available for academic and scientific staff and graduate students. Our faculty can also apply for national and international grants, and collaborate with researchers abroad on multidisciplinary projects. CMHS researchers actively publish their research in international peer-reviewed journals and have made some significant scientific breakthroughs.

“CMHS offers a wide array of opportunities for students to advance their learning and skills in the form of lab work, campaigns, workshops, seminars, research, community work, etc. The doctors and faculty are very professional and supportive, while the facilities are of a world-class standard. I would highly recommend the CMHS to study in for your future career.”

Omar Abdulla Shehab,
Doctor of Medicine, Year 6

CONSULTANCY & COMMUNITY SERVICES

The college’s role is not limited to the provision of curative services in hospitals, but also includes educational and preventive services in the community. In addition to preparing and training doctors and postgraduates, the College of Medicine & Health Sciences provides academic support to health institutions such as hospitals, the Ministry of Health and the Health Authority of Abu Dhabi (HAAD) and Dubai (DHA). Our faculty members are involved in the direct care of patients at local hospitals and provide consultant clinical services to medical laboratories and to various industries e.g. oil companies, the airline industry and other local and international organizations.

CMHS has established a Higher Professional Training Committee with the responsibility of identifying national clinical needs and to encourage the development of training programs to meet those needs and to offer courses to healthcare professionals at certificate, diploma, and fellowship level.

CONTINUING PROFESSIONAL DEVELOPMENT (CPD)

Continuing professional development is offered to postgraduates, practicing healthcare professionals and residents so that they can remain up to date with changes in scientific research and medical practice. The activities of the Continuing Professional Development Department include international and local conferences and seminars, clinico-pathological presentations, research findings, clinical care audits, critical reviews, patient

care evaluations, general and specialty journal clubs and video-conferencing links with international colleagues. CMHS is an approved CPD accreditor for medical education activities in the UAE.

EMIRATES HEALTH SERVICES (EHS)

The Emirates Health Services (EHS) was established in 2010 as a registered healthcare providing facility of the Health Authority of Abu Dhabi (HAAD). The facility provides clinical and scientific consulting services, advice on healthcare and hospital procedures and policies, medical staffing issues, medical professional development (CME/CPD) and assessment, and other medical training.

The current facility is located in the CMHS Building in Al Ain. It has 68 HAAD licensed physicians drawn from the clinical academic staff of the college.

- Past and current activities of EHS include:
- ▶ Continuing professional development: Professional skills development and training.
 - ▶ Medical assessment: Assessment for professional skills and competency.
 - ▶ Clinical service and advisory functions: Recruitment and distribution of specialists, physicians and technical experts.

WHY CHOOSE UAEU?

1

Excellence

At UAEU we focus on the quality of the learning experience for each student. UAEU's "excellence agenda" involves every aspect of the university. Here you will find the finest faculty in the nation, the most advanced technology in the region and the most modern and attractive campus facilities to be found anywhere. Our unrelenting focus on excellence ensures that your degree is highly regarded, both nationally and internationally, and that you will leave the university fully equipped for professional and personal success.

2

International Recognition

Based upon our international reputation, the employability of our graduates, and our research productivity, UAEU continues to rank among the best of the world's 13,000 universities. QS, a London-based international ranking of the world's leading universities, rates UAEU as number one in the nation and number 370 in the world. QS also includes UAEU on its list of the top 50 world universities that have been founded within the past 50 years.

3

Employability of our Graduates

Since our programs have been designed in partnership with employers, our graduates are highly sought after by both private and government entities. Our academic programs include not just classroom theory, but also practical internships and research experiences. Our graduates consistently find that their hands-on experience provides them both with the practical skills that employers value and with the connections and relationships that are an important part of the career-building process.

4

A Supportive Learning Environment

UAEU is committed to providing the support to ensure that every student can be successful. Our support services include counseling, healthcare, IT support, disability support, career services, financial aid, international student services, alumni services, a student success center and a student council. Regardless of the obstacles that you encounter along the way, there is always a mentor, a counselor, or an advisor nearby to help. Each student is provided with an individual academic advisor to assist with the critical decisions and choices that you face along the road to academic and career success.

5

A Vibrant Living Environment

Our goal is not only to give students an excellent degree qualification but also to ensure that you have fun along the way. Our students come from more than 50 countries, so you will interact with and learn from people of diverse cultural backgrounds. The university offers a wealth of extra-curricular activities and life-enhancing experiences to enrich your university experience, and with more than 50 Clubs and Societies at UAEU, there is no shortage of opportunities to have fun outside of lectures and to make friends. UAEU's campus is a real community with multiple cafés and restaurants, retail and banking facilities, bright, modern campus residences, and exceptional athletic and recreational facilities.

6

A Magnificent New Campus

The new UAEU campus features the most modern architecture, zones for specialized research centers, cutting edge IT network infrastructure, classrooms and labs that feature the latest equipment and instructional technology to enhance student learning. There is also an expansive library offering vast physical and electronic resources, two world class health clubs equipped with latest fitness equipment, two Olympic sized swimming pools, as well as tennis, basketball, and badminton courts.

7

Cutting-Edge Research

The UAEU is the nation's premier research university. We not only transmit knowledge to our students, but through our colleges and research centers we help to create new knowledge, work on developing new treatments for cancer, produce new technology for addressing the world's energy needs and develop new techniques for increasing the global food supply. Each year our historians and archaeologists help to discover and assess historical artifacts concerning the accomplishments and culture of the people from this part of the world. As a UAEU student, you will have the opportunity to work side by side with internationally known research faculty on these exciting projects.

8

Community Outreach

As the UAE's national university, UAEU recognizes the responsibility of the university and our graduates to contribute to the wellbeing of the broader community. We encourage our students and staff to give back to the community through civic engagement, public service, and research. The university helps students connect with volunteer and community service organizations in the student's particular area of interest.

9

Choice

No university in the nation provides as many academic choices as UAEU. The university offers 63 undergraduate and 67 graduate programs across a broad range of disciplines, including business, economics, education, engineering, food and agriculture, humanities, the social sciences, IT, law, medicine and health sciences, and the natural sciences. Many of our degree programs are unique to UAEU, and many of them are offered in unique combinations. Whatever your interests, talents, and goals, UAEU has a program to match.
