UAEU Licenses Al Hameli International Group Two US Patents to Recycle Carbon using Nanotechnology.

The United Arab Emirates University (UAEU) recently granted a license to the Al Hameli International Group to make use of two patents to recycle carbon residues using nanotechnology. This agreement is for 12 to 15 years. The two parties signed a licensing agreement while participating in the International Defense Exhibition and Conference (IDEX). His Excellency Sheikh Hamdan Bin Mubarak Al Nahyan, Minister of Higher Education and Scientific Research and Chancellor of UAEU, noted that this agreement is the first of its kind for a UAE university and is in keeping with the directives of the UAE's leadership, headed by His Highness Sheikh Khalifa Bin Zayed Al Nahyan, UAE President and the vision of His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE, and Ruler of Dubai. Such initiatives are also supported by His Highness General Sheikh Mohammed Bin Zayed Al Nahyan, the Crown Prince of Abu Dhabi and Deputy Supreme Commander of the Armed Forces. Such agreements help to promote the UAE's vision of inculcating leadership, excellence and innovation in line with UAE Vision 2021.

UAEU Holds

An Open Day for High School Students

The United Arab Emirates University (UAEU) welcomed 228 freshmen students for the second semester of the 2014/2015 academic year. They were welcomed by Professor Mohamed Al Baili, Deputy Vice Chancellor for Academic Affairs (Provost), in the presence of many parents and representatives from a variety of college departments at UAEU.

Professor Al Baili conveyed the greetings of His Excellency Sheikh Hamdan Bin Mubarak Al Nahyan, Minister of Higher Education and Scientific Research and Chancellor of UAEU, who wished the students every success in their studies.

Editorial

The articles in this edition are a reflection of the strides that the United Arab Emirates University is taking towards the future. UAEU aims to provide graduates capable of taking on responsibility and pursuing excellence in a variety of different fields.

This involves greater responsibility. However, we approach the future in a confident manner sure that we can overcome any obstacles in our way thanks to the confidence we have in our students, faculty and staff.

The pursuit of excellence is more than a motto it is a way of life. UAEU continues to seek innovative new ways of doing things and continues to improve the quality of the educational experience and research endeavors that we undertake.
