'Ministry of Environment', UAEU ink agreement on climate change modeling collaboration

Published on 18 October 2018

The Ministry of Climate Change and Environment (MOCCAE) today signed an agreement with the United Arab Emirates University (UAEU). The two entities will collaborate in building climate change-related modelling capacities in two main areas – predicting future climate patterns in the UAE and the wider region as well as their effects, and developing a methodology for assessing the socio-economic impact of the UAE climate change policy.
