

Hamdan Bin Mubarak:

Honoring high achievers
 reinforces ambition in the young..

His Excellency Sheikh Hamdan Bin Mubarak Al Nahayan, Minister of Higher Education and Scientific Research and Chancellor of UAEU, talked about the achievements of the Emirati people as they strive to keep pace with everything new and developing in many fields. This fuels the desire for progress, development, and prosperity under the auspices of the national leadership.

His speech honoring 44 leading national figures pointed out that His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE, and Ruler of Dubai, also seeks to honor Emirati achievers who augur well for the UAE's long-term future vision. This also instills values such as leadership, ambition and the pursuit of excellence.

Abdallah Ghobash:

“The United Arab Emirates University presents an elite option for any UAE citizen”..

His Excellency Abdallah Ghobash, Minister of State in the United Arab Emirates government, stressed that education across the UAE has improved in terms of learning technologies at every level thanks to the support of the national leadership. The development of teaching and learning has been at the forefront of the government's strategic planning and priorities. This has resulted in an increase in the number of higher education institutions, both government and private, and created competition in terms of attracting students and improving academic targets to meet the need of the nation and society in a variety of disciplines. Such institutions meet the ambitions of students who seek a high quality and advanced higher education that is comparable to other universities worldwide.

Editorial

This month features a variety of events in keeping with UAEU's pursuit of excellence and leadership in terms of innovation. The Media and Communications Department supports this through widespread media coverage and disseminates news from the university to the wider community. We have also supported the university's drive for innovation and creativity over the past few months.

This is part of our vision to become a link between national aspirations and community-based initiatives. We report of the work and achievements of the university, its faculty and students in order to share this with the community and society as a whole.

Maryam Al Roumi:

“The United Arab Emirates University has made great strides in academia and in preparing national graduates”..

Her Excellency Maryam Al Roumi, Minister of Social Affairs, expressed her pride in the accomplishments of UAE women in leadership positions. They have made significant strides in many fields and kept pace with developments in wider society by assuming a degree of responsibility.

This speech was part of her visit to the United Arab Emirates University campus in Al Ain. She was returning to the College of Arts (English Department) where she previously graduated. She commented on the development of female education, with the percentage of women in education in the UAE being amongst the highest in the region since the establishment of higher education.

She added that “women in the UAE have made great strides thanks in part to the care and concern the country has for education. It is at the forefront of national strategies which contribute to an increase.

As part of the Educational Research Forum:
The UAEU supports research and calls for increased research in education..

The College of Education at the United Arab Emirates University recently organized an 'Educational Research: Opportunities, Priorities and Innovation' forum. It was held in the presence of Professor Ghaleb Ali Al Hadrami, Deputy Vice Chancellor for Research and Graduate Studies, Professor Bernard Oliver, Dean of the College of Education and other faculty and specialists in education and scientific research.

Professor Oliver explained that the goal of the forum was to enrich the research experience of faculty and graduate students by introducing them to the various research opportunities available, and to strengthen cooperation between the college and official bodies with similar research interests. Professor Oliver called on the students to benefit from the researchers at the forum and to learn from their experiences and ideas.
