University's Vision

Leadership and excellence in higher education and scientific research at the regional and international levels.

Jebel Hafit study finds new insects for UAE

A study of a group of small insects in the Jebel Hafit area of Al Ain by a researcher from the UAE University has identified seven species that had never before been reported from the UAE, according to a paper published earlier this month in a Polish academic journal, *Acta entomologica silesiana*.

**Glimpse of the future: UAE scientists develop tool
that predicts customer behaviour**

It's something that people in all walks of life would love to have – a way of telling us when a machine might break down, when a traffic jam might occur, or which new customer might prove to be the most profitable.
