### **University's Vision**

Leadership and excellence in higher education and scientific research at the regional and international levels.

## Focus on robots can aid UAE's economy

The news that a humanoid robot capable of displaying emotions is being developed in the UAE is intriguing. Academics at UAE University are particularly interested in developing robots that can care for children with special needs, in particular those with autism. There is some evidence that autistic children respond better to the more controlled responses of robots than the naturally emotional responses of humans.
