University's Vision

Leadership and excellence in higher education and scientific research at the regional and international levels.

UAEU's First Water Center Lays Out Vision for Water Conservation

The National Water Center at United Arab Emirates University was set up in 2012 to support research related to water conservation and sustainability in the United Arab Emirates. Here, the center's new director, Mohsen Sherif, discusses the center's water conservation plans for the country. Currently, the UAE's water supply for domestic water uses is fully secured from the .desalination of seawater
